# DEPARTMENT OF UROLOGY

**Appointment**  
**7878 000 444**

Shankus Medicity : Near Shankus Water Park,  
Ahmedabad - Mehsana Highway, Baliyasan, Mehsana.

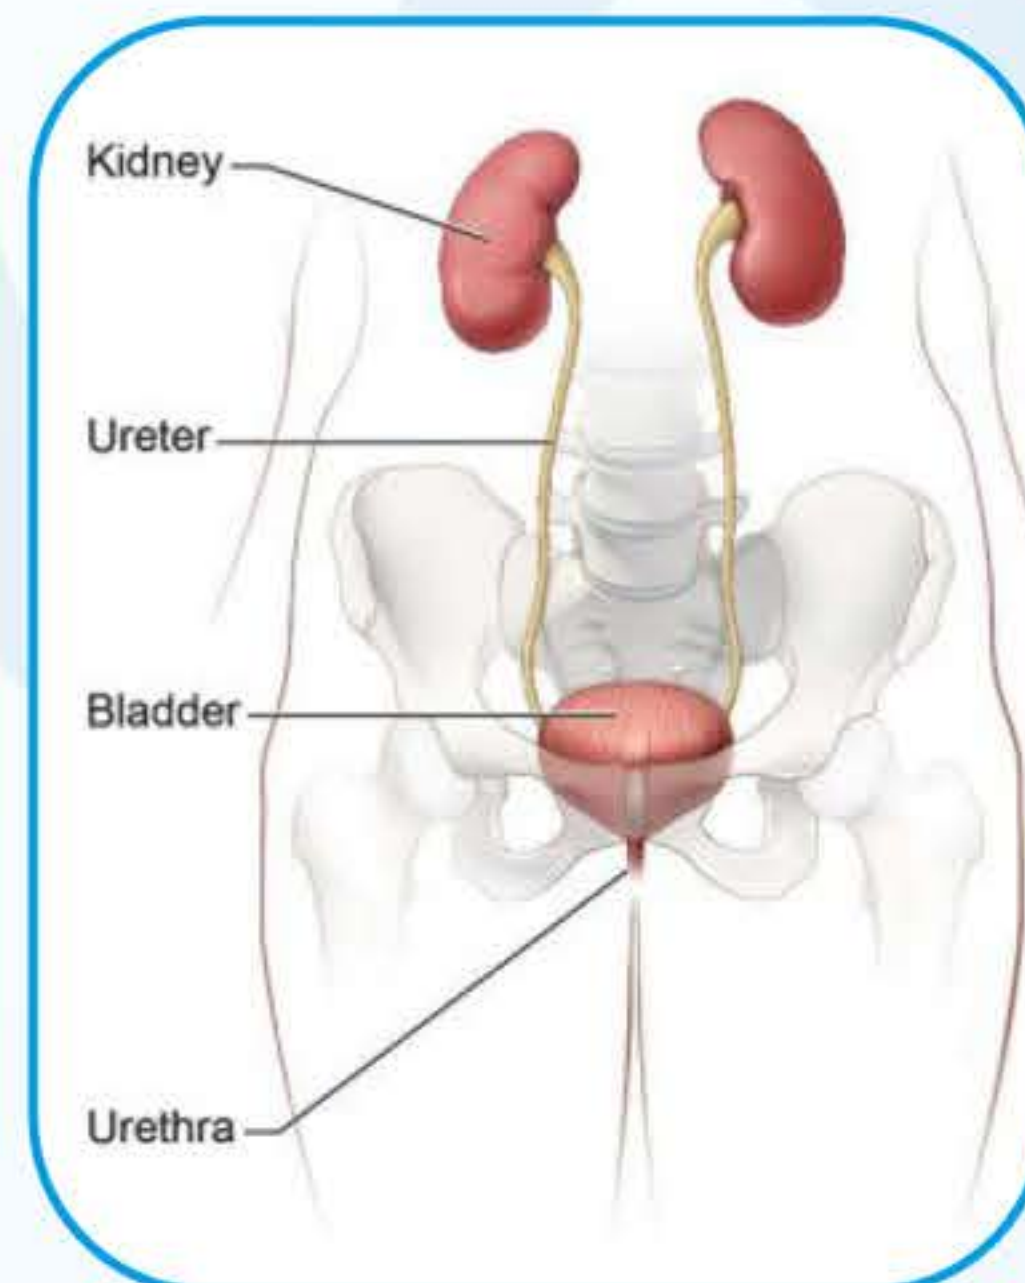

Urology is a surgical specialty that treats diseases of the male and female urinary tract and the male reproductive organs. Anatomically it includes diseases in the upper urinary tract like the kidneys and ureters, the lower urinary tract like the urinary bladder and urethra, and the male inner and outer genitals like the prostate, testicles and the epididymis.

### Subspecialty Areas

- ◆ Paediatric Urology
- ◆ Uro Oncology (cancer)
- ◆ Renal Transplantation
- ◆ Male Infertility
- ◆ Urinary Tract Stones
- ◆ Female Urology (urinary incontinence and pelvic outlet relaxation disorders)
- ◆ Neurourology (voiding disorders, urodynamic evaluation of patients and erectile dysfunction or impotence)

### Scope of Services at SMC

- ◆ Cancer of the adrenal gland, kidney, ureter, bladder, prostate, penis, and testicles
- ◆ Enlarged prostate, or benign prostatic hyperplasia (BPH)
- ◆ Erectile dysfunction
- ◆ Hematuria, or blood in the urine
- ◆ Hydrocele/Spermatocele
- ◆ Stone disease of kidney, ureter and bladder.
- ◆ Male infertility
- ◆ Neurogenic bladder
- ◆ Overactive bladder
- ◆ Pediatric urologic problems, including: – Vesico-ureteral reflux – UPJ obstruction – Penile/urethral anomalies – hypospadias – Voiding dysfunction – Undescended testicle
- ◆ Pelvic floor disorders
- ◆ Peyronie's disease
- ◆ Urethral stricture
- ◆ Urinary incontinence, male and female
- ◆ PUJ Obstruction

- ◆ Prostatitis
- ◆ Urinary tract fistulas
- ◆ Testicular torsion
- ◆ Urinary tract infections
- ◆ Varicocele

SMC has a dedicated treatment program for all urological procedures, skills and facilities to carry out endoscopic and laparoscopic (keyhole) surgery wherever possible.

SMC urologists perform minimally invasive surgical procedures resulting in shorter hospital stays, less discomfort and bleeding, and a shorter recovery. These include laparoscopic radical and simple nephrectomy, laparoscopic pyeloplasty, laparoscopic ureteric re-implantation, laparoscopic adrenalectomy, laparoscopic ureterolithotomy and various endourological surgeries.

Urologist at SMC are dedicated to perform stone and prostate surgery even in high risk cardiac patient. Our team of surgeons, specialty nurses and other support staff are committed to the highest level of patient care and their high level of skills will ensure a smooth management of urological problems and disorders.
